

## SECTION 12. WARRANTY

### LIMITED WARRANTY

---

Henry Radio warrants each new Henry amplifier to be free from defective material and workmanship and agrees to remedy any such defect or to furnish a new part in exchange for any part of any unit which under normal installation, use, and service discloses such defect, provided the unit, or part is delivered by the original owner to us intact for our examination, with all transportation charges prepaid to our factory, within ninety days from the date of sale to the original purchaser and provided that such examination discloses in our judgement that it is thus defective. Should a malfunction be suspected, write in detail to our service department for suggestions concerning the operation, repair, or return of your unit if it should prove necessary.

EXCLUSION: Henry Radio does not warranty vacuum tubes used in their equipment. Eimac tubes are warranted by Eimac on a pro-rated one year basis. All other tubes are not warranted.

EXCLUSION: Warranty claims will only be honored when accompanied by proof of purchase which shows the purchase date.

EXCLUSION: This warranty does not extend to any of our radio products that have been subjected to misuse, neglect, accident, incorrect wiring not our own, improper installation, or to use in violation of the instructions furnished by us, nor extend to units which have been repaired or altered outside the factory without our permission, nor in any cases where the serial number thereof has been removed or defaced or changed, nor to units used with accessories not manufactured or recommended by us.

The above warranty does not include incidental or consequential damages and the distributor disclaims any liability for any such damage. All implied warranties, if any, are limited in duration to the above stated 90 day warranty period. Some states do not allow the exclusion or limitation of incidental or consequential damages or on how long an implied warranty lasts, so the above limitations may not apply to you.

Henry Radio reserves the right to make any improvements to its products which it may deem desirable without obligation to install such improvements in its previously sold products.
